

CONCLUSIONS:

Thus, it can be inferred that methanolic extracts of *S. alata* have higher antioxidant activity compared to the aqueous extracts and can be used as natural antioxidants like red wine, green tea and cocoa.

ACKNOWLEDGEMENTS:

Mrs. Archana Pamulaparthi is grateful to University Grants Commission, New Delhi for providing financial assistance as project fellow under the UGC-SAP-DRS-II programme (Ref. No. F. 3-19/2009 (SAP-II), Dated. 31-3-2009).
